CAREER OBJECTIVE

B.Tech Computer Science & Engineering (AI & ML) student graduating in 2027 with hands-on full-stack development experience using JavaScript, Python, React.js, Node.js, REST APIs, SQL, and MongoDB. Experienced in developing, testing, debugging, and deploying web applications with ownership across the development lifecycle. Familiar with Vue.js, MS SQL Server, Agile, Scrum, CI/CD, and software testing practices. Strong foundation in programming, Data Structures, problem solving, analytical thinking, and collaborative development. Seeking an Associate Product Engineer / Full Stack Developer.

EDUCATION

Vidya Jyothi Institute of Technology (VJIT), Hyderabad, India <i>B.Tech in Computer Science & Engineering (AI & ML)</i>	Jul 2024 – 2027 (Expected) CGPA: 8.4/10.0
SVS Group of Institutions, Hanamkonda, India <i>Diploma in Computer Science Engineering</i>	Aug 2021 – Apr 2024 CGPA: 8.84/10.0
TSMS Lachapet, Siddipet, Telangana <i>Secondary School Certificate (SSC)</i>	2021 GPA: 10.0/10.0

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python,
Frontend: React.js, Vue.js (Basic), HTML5, CSS3, Tailwind CSS, Vite, React Router
Backend & APIs: Node.js, Express.js, REST APIs, Axios, Authentication, JWT, RBAC
Databases: SQL, MySQL, MongoDB, MS SQL Server (Basic)
Software Engineering: Data Structures & Algorithms, Object-Oriented Programming, Agile, Scrum, Software Testing, Debugging
DevOps & Monitoring: CI/CD, Git, GitHub, ELK Stack (Basic), Postman, Vercel, Render
AI/ML: Generative AI, AI Agents, Prompt Engineering, RAG, LangChain, Groq API, LLaMA-3-70B, Streamlit
Tools: VS Code, Postman, Git, GitHub
Soft Skills: Problem Solving, Analytical Thinking, Communication, Team Collaboration, Adaptability, Quick Learner, Time Management

EXPERIENCE

MicroSys Logic Technologies <i>Web Developer Intern – Full-Stack Development</i>	Oct 2025 – Apr 2026 Hyderabad, India
- Developed and enhanced 20+ responsive React.js components using reusable component architecture, improving UI consistency and reducing development effort. - Integrated frontend applications with backend REST APIs and SQL/database systems, implementing authentication workflows for multiple application features. - Tested, debugged, and validated application features before deployment, resolving UI, functionality, and integration issues across the development lifecycle. - Used Git and GitHub for version control and collaborated with team members in an iterative development environment.	
Salesforce Virtual Internship	Virtual
Customized Salesforce CRM using Apex and Lightning Components.	

- Completed courses covering Apex Specialist, Object Relationships, and Lightning Web Components (LWC).
- Applied Salesforce fundamentals across Setup, Data Management, Security, and UI Design.

VISWAM.AI x Meta x IIIT Hyderabad

May 2025 – Jun 2025

AI Intern – Summer of AI Program

Hyderabad, India

- Completed a 4-week intensive AI program focused on designing technology solutions for real-world and social-impact challenges.
- Collaborated with team members and mentors to analyze problems and design solutions; contributed to an AI-powered solution through problem analysis, implementation, testing, and presentation.

PROJECTS

Heera E-Vehicles – EV Dealership Management System

heeraevehicles.in

React.js, TypeScript, Vite, Tailwind CSS, React Router, Axios, REST APIs

- Collaborated with a local EV showroom to gather requirements and develop a production-ready dealership management web application based on real business needs.
- Built responsive, reusable frontend components and implemented vehicle catalog, vehicle details, offers, authentication, customer inquiries, and dashboard interfaces.
- Integrated REST APIs with the backend developer for dynamic, data-driven user experiences; performed end-to-end testing, incorporated client feedback, refined UI/UX, and contributed to deployment.

EduPapers – Engineering Question Papers Platform

github.com/kaladharb/EDU-PAPERS

React.js, TypeScript, Framer Motion, ImgBB API, LocalStorage

- Developed a responsive web platform to search, filter, view, and share engineering question papers.
- Implemented branch, year, and exam-type filtering, real-time search, user uploads, and input validation; integrated ImgBB API for image storage and TypeScript for structured data management.

AI Resume & Career Assistant – Generative AI

resume-coach-five.vercel.app

React.js, Node.js, MongoDB, REST APIs, Groq API, LLaMA-3-70B, Recharts, Vercel

- Built a Generative AI application using Groq API and LLaMA-3-70B for resume analysis, ATS optimization, and career guidance.
- Developed backend APIs and integrated frontend components with application services for resume analysis and personalized career recommendations.

ACHIEVEMENTS

- **Smart India Hackathon (SIH) 2024:** Cleared the internal college round and represented the team.
- **InnoQuest Hackathon:** Ranked among the Top 10 teams.
- **Salesforce Trailhead:** Earned Agentblazer Champion 2026 by completing Agentforce and Einstein AI learning paths.

CERTIFICATIONS

- Data Analytics Essentials – Cisco Networking Academy (2026)
- Python Programming – Cisco Networking Academy (2025)
- Database Management System (DBMS) Fundamentals (2024)
- Summer of AI Participation – VISWAM.AI x Meta x IIIT Hyderabad (2025)
