⚡ LeetCode 🍳 CodeChef 🏆 HackerRank

Career Objective

I am a Computer Science student specializing in AI Machine Learning with a strong interest in building real-world applications using web technologies and Generative AI. Through academic projects, internships, and hackathons, I have gained hands-on experience in full-stack development and AI-powered solutions. I am looking for opportunities to learn, contribute, and grow as a software developer while working on impactful products.

Education

B.Tech in Computer Science & Engineering (AI & Machine Learning) Jul 2023 – 2027 (Expected)
Vidya Jyothi Institute of Technology (VJIT) Hyderabad, India
CGPA: 8.4 / 10.0

Diploma in Computer Science Engineering Aug 2021 – Apr 2024
SVS Group of Institutions Hanamkonda, India
CGPA: 8.84 / 10.0

Secondary School Certificate (SSC) 2021
TSMS Lachapet Telangana, India
GPA: 10.0 / 10.0

Technical Skills

Programming Languages: Python, Java, JavaScript
Web Development: HTML5, CSS3, React.js, Node.js, Express.js
Databases: MongoDB, MySQL, PostgreSQL
AI/ML: GenAI, Groq API, LLaMA-3-70B, Basic RAG, Streamlit
Tools: Git, GitHub, VS Code, Vercel, Render, Postman

Technical Summary

Web Full-Stack Development: Hands-on experience building full-stack web applications using React.js, Node.js, Express.js, MongoDB and PostgreSQL. Skilled in REST API integration, responsive UI development, frontend-backend communication, and deployment using Vercel.

AI/ML Generative AI Development: Experience integrating LLMs such as LLaMA-3-70B through Groq API into production-ready applications. Built RAG-based systems, resume analysis tools, document QA solutions, and AI-powered dashboards using Streamlit, LangChain, and modern GenAI frameworks.

Personality Traits

Problem-Solving | Effective Communication | Team Collaboration | Adaptability | Emotional Intelligence | Self-Motivated | Quick Learner

Projects

AI Resume & Career Assistant Live

- Built a GenAI application using Groq's LLaMA-3-70B for resume analysis and ATS optimization.
- Generated skill-gap insights and personalized 12-week career roadmaps.
- **Tools:** React.js, Node.js, MongoDB, Groq API, LLaMA-3-70B, Recharts, Vercel.

Multi-Agent Hybrid RAG — PDF Q&A Bot Live

- Designed a multi-agent RAG pipeline with intelligent query routing.
- Integrated Groq LLaMA and Google Gemini backends.
- **Tools:** Python, LangChain, Groq API, Gemini API, Streamlit.

Echoes of Time — Interactive Heritage Web App Live

- Built a React.js application showcasing Telangana's history through interactive timelines.
- Implemented responsive UI and dynamic navigation.
- **Tools:** React.js, JavaScript, CSS3, Vercel.

- Built a React.js application showcasing Telangana's history through interactive timelines.
- Implemented responsive UI and dynamic navigation.
- Tools: React.js, JavaScript, CSS3, Vercel.

Internships

MicroSys Logic Technologies

Hyderabad, India

Web Developer Intern (Full-Stack Development)

Oct 2025 – Apr 2026

- Developed and enhanced responsive React.js components, contributing to the frontend architecture and improving user experience across multiple application modules.
- Worked across the full stack by integrating frontend interfaces with backend APIs and database systems, ensuring smooth data flow and functionality.
- Assisted in API integration, authentication workflows, and feature implementation, reducing development bottlenecks and improving application stability.
- Collaborated with senior developers in an agile environment, participating in code reviews, debugging, testing, and deployment activities.

VISWAM.AI × Meta × IIIT Hyderabad

Hyderabad, India

AI Intern (Summer of AI Program)

May 2025 – Jun 2025

- Successfully completed a 4-week intensive AI program focused on designing technology solutions for real-world and social-impact challenges.
- Worked in a collaborative team environment under the guidance of mentors from VISWAM.AI, Meta, and IIIT Hyderabad.
- Contributed to the development of an AI-powered solution by participating in problem analysis, solution design, implementation, and presentation.
- Gained practical exposure to AI development workflows, rapid prototyping, teamwork, and project delivery within a fixed timeline.

Achievements

- Smart India Hackathon (SIH) 2024 – Cleared the internal college round and represented the team.
- InnoQuest Hackathon – Ranked among Top 10 teams.
- Summer of AI – Completed AI innovation program under VISWAM.AI, Meta and IIIT Hyderabad.

Certifications

- **Data Analytics Essentials** – Cisco Networking Academy (2026)
- **Python Programming** – Cisco Networking Academy (2025)
- **Database Management System (DBMS) Fundamentals** – (2024)
- **Summer of AI Participation** – VISWAM.AI × Meta × IIIT Hyderabad (2025)

Coding Profiles

- LeetCode – Active problem solving in Data Structures and Algorithms.
- CodeChef – Regular coding contest participant.
- HackerRank – Practice in Python, SQL and Problem Solving.
